

## DIMMING

Luz Fría Studio are available in three versions:

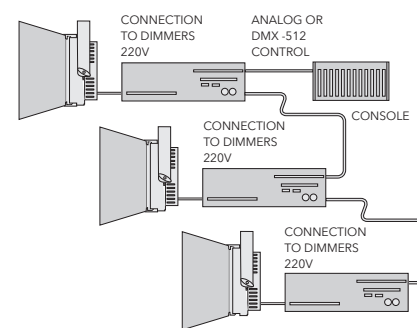

### A- NON DIMMING VERSION

It is a low-cost version. Ideal for providing a permanent lighting in situations where a dimmer is not required.

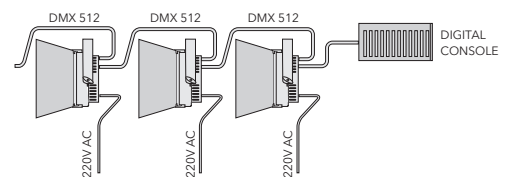

### B- PHASE CONTROL VERSION

Dimming is through Phase control output of a dimmer. The Luz Fría Studio units can be connected to the dimmers in the same way as halogen lights with out the need to lay new cables in the studio.

### C- DIGITAL VERSION

DMX technologies make it possible to integrate the Luz Fría Studio units into a light setting system. Using DMX control multiple units of Luz Fría Studio can be wired in a network. With low voltage wiring all Luz Fría fixtures can be controlled from a digital console.

These equipments comply with all applicable European directives and safety standards
