

## PRIXMA BEAM STUDIO - LONG THROW

### PRIXMA BEAM SPOT 110W

Prixma Beam is a powerful led lighting panel, offering excellent performance for mid size or large size TV studios with high lighting grids where are necessary light power intensity and long throw beam. Prixma Beam require low consume, only 100W. They are silent fan-free operation and high CRI at 95. A control panel on the rear, allow the DMX and Manual control, for the variable color to between 3200-5600K° and dimming. Optional accessory for battery (V-mount type) holder to DC connection. They are a very professional lighting tool for TV studios and other stages.

**PRIXMA BEAM** 53-39 Variable color 3200K° - 5600K°
