

2000W FRESNEL PLUS SERIES LENS 175MM

STUDIO & LOCATION FRESNELS PLUS SERIES

New range of Fresnel series Plus developed with aluminium extrusion and steel for providing attractive design and strength construction. Using Schott® lenses from Germany for offering high quality optical performance, soft-edge beam with excellent light distribution over a range of beam angles. Improved air ventilation through a double wall structure ensures efficient heat dissipation and maximum lifetime of its parts. Rugged housing, assembled with machine screws for easy maintenance and repair. Fresnel series Plus are available with manual or pole operated yokes version as well as for location uses. Supplied with 8-leaf rotating barndoor and colour frame.
