

NOVALINK 24 DMX 512, 10 pages of 8 sub- masters, SD card

LIGHTING CONTROL CONSOLE

The NovaLink 24 control panel feature a Soft-Patch
The soft-patch allows driving the large number of
DMX channels demanded by LED luminaires. The
softpatch of the 24 channel model can drive up to 512
DMX channels The NovaLink can record scenes and
chases with variable fade times and chase speeds,
and complete shows. Easy to learn and operate the
desk is an ideal control panel for Schools, Theatres,
and Drama and TV studios. The Bass and Chase
features also make the NovaLink ideal for Events and
Club lighting
